TÜV certification

The TÜV certification is globally recognized as proof of safety and quality, ensuring products have been rigorously tested for safety and comply with the relevant technical and safety requirements. This includes documentation review, performance assessment and (laboratory) testing. An overload test with 5 times the allowed maximum weight is part of this testing process.

TÜV conducts regular inspections, to ensure products initially tested and certified by TÜV continue to be produced with consistent quality. Included are production inspections, supplier assessment and pre-delivery inspections.

As an independent body, TÜV certification serves as acknowledgement of quality and reliability.

Information & support

Neomounts offers the most comprehensive, up-to-date assortment of high-quality mounting solutions, according to the latest trends in the AV and IT market.

The products in the assortment of Neomounts are designed with an eye for detail, quality, value for money and ease of installation. Our mission is that you always experience the best viewing and working position, resulting in optimal posture and maximum comfort whilst using your screen.
